George,

Lydia, Ben and I came by your office to discuss the extension requests from Explo and General Dynamics.

They would like to do the following if you approve:

Explo:

Give them a 15 day extension to the 30 days already allowed in the original letter, with weekly submissions of information, to be provided by Explo.

General Dynamics:

Approve the June 7 extension but again to weekly submissions of data to be provided by GD.

Enforcement feels this is necessary because of the high priority and high risk involved with this site.
